PROFESSIONAL EXPERIENCE

Software Developer

Noorisys Technologies

Contributed to multiple projects, received the Rising Star Award for remarkable performance as a Jr. Developer, & represented the company at Gitex Global & Expand North Star 2024 in Dubai alongside the CEO & CTO.

Oct 2023 – present  
Malegaon, India

PROJECTS

TMA / Lokkarroom

- Onboarded into and modernized an enterprise Next.js (Pages Router) codebase with TypeScript, Redux Toolkit, and Tailwind CSS.
- Upgraded 70+ dependencies, optimized GitLab CI/CD pipelines, and adapted Argo CD GitOps workflows on GCP, improving build times by 35% and resolving workflow and release management issues.
- Fixed premium-content leaks by diagnosing and correcting logic that allowed non-premium users to access gated content.
- Integrated Google and Facebook OAuth2 authentication across main and microsite domains, unifying session management.
- Removed Veriff SDK procedures and dependencies, streamlining user flows and simplifying token purchase processes.

Questionnaire - Survey Form Generator

A survey form generator with a dual-panel interface for creating & participating in surveys.

Features:

- Survey Creation: Admins can design and configure detailed surveys with various answer types.
- Logic Configuration: Handled complex dynamic question logic, where questions depend on previous answers, ensuring a smooth, responsive experience during both design and user interaction phases.
- Survey Participation: Users can complete and interact with the surveys created by admins.

Technologies: Next.js, TypeScript, Tailwind CSS.

Zowar - Online Travel Agency

A travel management web app for booking flights & trains, with admin & multilingual support.

Features:

- Flight Module: Integrated Amadeus API for searching & booking flights.
- Train Module: Integrated Harmain API for booking & managing train journeys in Saudi Arabia.
- Admin Panel: Developed a backend interface for managing bookings, users, & settings.
- Multilingual: Supports multiple languages & language directions (like RTL for Arabic), ensuring seamless localization & cultural adaptation.

Technologies: Next.js, TypeScript, Redux Toolkit, Tailwind CSS.

Workshop Inventory Management System

A full-stack inventory system for workshops, featuring dealer, product, and stock management.

Features:

- Dealers: Add & manage dealer information.
- Products & Categories: Add & categorize products, & create & manage product categories.
- Purchase Entry: Record & manage purchase entries.
- Stock Monitoring: Track current stock levels of products.

Technologies: Next.js (Frontend & Backend), MongoDB.

SKILLS

Next.js

React

Redux

JavaScript

TypeScript

Tailwind

React Native

GraphQL

Jest.js

AWS (EC2, S3, Lambda, IAM)

Node.js & Express.js

WebSockets

WebRTC

Git & GitHub

MongoDB

AWARDS & ACHIEVEMENTS

Rising Star Award

Awarded for remarkable performance as a Junior Developer at Noorisys Technologies.

2024

Gitex Global & Expand North Star 2024 | Dubai, UAE

Explored AI, blockchain, and IoT trends while networking with global tech leaders and startups, gaining insights into innovative technologies.

2024

EDUCATION & CERTIFICATIONS

Full Stack JavaScript Development

iNeuron

2022 – 2023  
Bangalore

Mechanical Engineering

CGPA: 8.74

S.S.V.P.S. Bapusaheb Shivajirao Deore College of Engineering, Dhule

2017 – 2021  
Dhule, India
